

# The Medium Power UHF Solution

## Single Tube DTV Mask Filter

- Coaxial I/O's as specified
- Up to 35 kW average power (without fans)
- Low loss, high Q, dual TEM11 mode design, for cooler, more efficient operation
- Rejection requirements as specified, mild or sharp tuned utilizing cross coupling technology
- Aluminum construction resulting in: lighter weight, better heat conductivity, no silver plating, no fans & greater reliability
- Temperature compensated
- Compact, space-saving unitized design, floor or ceiling mount

Dimensions: 48" typ. foot print  
(varies with application)

## Let MYAT design a solution for you

Typical performance  
(6 section, mild tuned)

## You Can Depend On MYAT

If you believe, as we do, that results are worth far more than empty promises, please give us a call at 201-767-5380. Or visit our Web site: [www.myat.com](http://www.myat.com). We'll get you on air, on time and on budget with reliable solutions that keep you up and running.

**Efficient filter solutions that save you time and money.**
